

Routine Business Disposed of by Council

This is the official record of the proceedings of Council of the Town of Wainwright at its regular meeting held in the council chamber on Tuesday, August 6th, 1946.

The members of Council present at the meeting were Mayor Middlemas and Councillors Robinson, Cork, Coleman and Leggett.

The recorded proceedings of Council at their regular meeting held on July 2nd were read and on motion of Councillor Coleman were adopted as written.

On motion of Councillor Robinson, that the application from The Wainwright School Division Board for improvements on Eighth Avenue East be referred to the Public Works Committee for consideration.

On motion of Councillor Coleman, that the application of Robert C. Morgan of Wainwright, to purchase Lot 12 in Block 45, Plan 945-Z, for the sum of \$25.00, be accepted by Council pending the passing of the necessary by-law.

An application received from Stanley C. Murray of Wainwright, to purchase Lot 3 in Block 41, Plan 945-Z, for the sum of \$25.00 and on motion of Councillor Coleman that this offer be accepted, by Council pending the passing of the necessary by-law.

On motion of Councillor Coleman, that the application of Mrs. Anna E. Dahl of Wainwright, to purchase Lot 13 in Block 27, Plan 644-V, for the sum of \$36.00, be accepted by Council pending the passing of the necessary by-law.

On motion of Councillor Robinson, that Notice from Royal Alexandra Hospital, advising that Walter McNeilly was admitted as an urgent case on July 7th, be received and filed.

On motion of Councillor Cork, that the action of the Secretary in arranging a Public Meeting to be held on August 8th at 8 o'clock P.M., for the purpose of furnishing the citizens with information on Proposed Water and Sewer By-Laws, be endorsed by Council.

On motion of Councillor Cork, that annual leave of absence be granted Constable P. E. Patterson as requested from August 12th to 26th.

On motion of Councillor Cork, that Report of Constable P. E. Patterson for the month of July be received and filed.

On motion of Councillor Cork, that petition from the Canadian Legion for permission to attach a suitable plaque inscribed with the names of the Fallen of Wainwright and District on the present Memorial Clock Tower, be granted, providing that it be placed on the North or West side and conform with present attached plaque dedicated to the Fallen of the First War.

On motion of Councillor Robinson, that the Report of the Finance Committee be accepted and that the Mayor and Secretary-Treasurer be authorized and instructed to issue cheques to pay the individual accounts in the total amount of \$1572.18.

Pat Buckton \$15.00
Alberta Gov. Telephone \$14.36
Calgary Power Co. Ltd. \$47.58

Short Story

John and Joe each had \$200 saved in his credit union share account. Each had an emergency need for \$150.

John drew the \$150 he needed from his share account.

Joe left his share account intact and borrowed the \$150 from the credit union.

It happened that they were killed at the same time in an accident on one of their frequent fishing trips together.

Since their credit union carried both Loan Protection and Life Savings Insurance with CUNA Mutual, Joe's widow benefited from the fact that Joe had borrowed from the credit union, while John's widow suffered from the fact that John drew his shares. Here's why:

Loan Protection paid up Joe's loan note; Life Savings matched his \$200 in savings. His widow received \$400. But John's widow received only the \$50 left in his share account plus an equal amount in Life Savings. Instead of \$400, she got \$100.

Morals (three of them):
1. Be sure you are a member at your local saving and credit union.

2. Build up your credit union share account for long range plans.

3. Use credit union loans for emergencies. —ADVT.

On motion of Councillor Robinson, that the Monthly Statement for the month of July, 1946, be accepted as received and ordered filed with the minutes of this regular meeting.

On motion of Councillor Cork, that Council be unable to allow any rebate on current taxes on properties assessed prior to July 1st and conform with the Present Assessment Act of the Province and that Mr. Morgan be advised accordingly.

On motion of Councillor Robinson, that matter of grading recently done on Eighth Avenue West, receive further attention from Public Works Committee.

On motion of Councillor Robinson, that assent be given to the introduction of a By-Law concerning the sale of Lot 13 in Block 27, Plan 644-V to Mrs. Anna E. Dahl of Wainwright, for the sum of \$36.00.

By-Law No. 521 then received its three readings in regular form.

On motion of Councillor Coleman, that assent be given to the introduction of a by-law concerning the sale of Lot 3 in Block 41, Plan 945-Z, to Stanley C. Murray of Wainwright, for the sum of \$25.00.

By-Law No. 522 then received its three readings in regular form.

On motion of Councillor Leggett, that assent be given to the introduction of a by-law concerning the sale of Lot 12 in Block 45, Plan 945-Z, to Robert C. Morgan of Wainwright, for the sum of \$25.00.

By-Law No. 523 then received its three readings in regular form.

On motion of Council was regularly adjourned.

Miss Eleanor Fish Married In Edmonton

At St. Anthony's rectory recently the Rev. Fr. Frank Eklund performed the marriage ceremony for Miss Eleanor B. Fish, daughter of Mr. and Mrs. Fish of Edmonton, formerly of Wainwright, and Mr. B. Lockhart, son of Mr. and Mrs. Russell T. McMahon of Mayethorpe.

The bride, who was given in marriage by her father, wore a pale blue suit with hat to match and white accessories. Her corsage was of pale roses.

The bride's attendant was Miss K. Wakaruk of Bruderheim, who wore a pale pink afternoon frock with white accessories and a corsage of tea roses.

Harold Seage was best man.

After the ceremony a reception was held at the home of the bride's parents to a few friends.

The couple will reside in South Edmonton. —Edmonton Bulletin

The spare "Q" coupons in the present consumer ration book will be declared valid for the purchase of meat after August 22, when the present supply of "M" coupons runs out, the Ration Administration of the Wartime Prices and Trade Board has announced.

While the valuing of coupons M-50 on Thursday, August 15, the final brown coupons in Ration Book No. 5 will be used. To provide consumers with meat coupons until the time the coupons in the new book No. 6, become valid on September 16, the gray spares marked "Q" will be used. The first of these, Q-1, becomes valid on Thursday, August 22.

To Squash A Rumor We Heard Recently

Somebody complained that it is to take two years for the water and sewer system to be installed, what is going to happen to the money that is to be borrowed when the plebiscite is approved. For the information of the doubting Thomas who DID NOT attend the public meeting held last Thursday, the money is not going to be borrowed at once in full. It is the intention of the council to borrow only as they have expenditure for it. Otherwise the money would be laying idle collecting interest with no revenue to help pay the interest.

On another angle the council pointed out is, if they happen to at anytime have more money on hand than they have expenditure for they will reinvest it in government bonds that will also be revenue bearing. In that way they will have access to the money without having to pay out any interest because the money while being invested will carry its own interest charges.

Also Mr. Cork stated the other day that he must have made a misleading statement at the public meeting as he has heard since that it is to take two years to start the installation of the water and sewer system, he would like to clear up any misunderstanding that might have occurred. What he meant was, in his opinion and as near as the engineers can guess, it will take two years and the installation will be completed by that time.

Baxter Lake Is On Production

Baxter Lake well, north-east of town, last week was put on production and with a confirmed report of around 75 barrels a day. This is the first that many have been waiting for as only water had been reported and water had intruded into the well. The flow of water has now been shut off giving promise of one of the best wells in the district. Gravity of the oil obtained last week was in the 22-24 degree of 16" which is a rather heavy oil.

The latest report from the well showed 10% water in the recovery.

Oil Examiner

Medical Health Officer Stresses Need Of Water and Sewer System

Being one of the speakers on the agenda for the public meeting held last Thursday evening Dr. H. C. Wallace, local health officer for Wainwright, stressed the urgent need of the installation of a water and sewer system within the limits of the town of Wainwright.

His remarks were very well received, and as he told of three ways to look at the question, they were well received. He thought that Wainwright does need a Water and Sewer system.

Below will be found the text of Dr. Wallace's speech as given to the ratepayers present and for the ratepayers who were unable to be in attendance at the meeting we herewith print it.

To the ratepayers of the Town of Wainwright

I am pleased to have the privilege of addressing you, relative to the proposed project to provide the residents of this town with water and sewerage facilities. We have been given a clear and concise plan of the proposed system together with a schedule of water and sewerage rates.

I have carefully studied the proposed plan and have conscientiously attempted to answer these questions under three headings, namely:

I. As a private home owner.

II. As a citizen.

III. In my official capacity as Medical Health Officer.

I. As a private home owner:

At the present time we have in our home a complete water system,

Wainwright Play At Edgerton On Sunday

Playing a deferred game at Edgerton on Sunday last the local ball

well pleased with their first test of the field.

It is not learned whether or not the Company have found a pump, but as of Friday last they were searching for one and in the condition of the roads were very hard due to rains were experiencing some difficulty in locating a suitable pumping unit for the water.

The latest report from the well showed 10% water in the recovery.

team took the top edge of the board by a score of 7-3. By the way that everybody speaks it was a good clean game with fast tight plays being done all way round.

Wainwright led the scoring until Edgerton made a few quick runs, and after an error on third base, letting in more runs for Wainwright, Edgerton never regained their lost ground.

This game was a postponement game and with Wainwright winning it puts them in third place for the league standing.

Line-up was as follows: Guilekoon pitching; King catcher; Reynolds left field; Lamm and base; Patterson first base; Johnson short stop; Hume left field; Crundwell center field; Fonby right field.

Who is responsible for this condition? Some will say the mayor and council, others will blame the scavenger, probably most will blame the M.H.O. All are partly right but mostly wrong. The truth is that you are to blame—you the citizens of this town—and your present system or lack of system of sanitation.

On August 10th you will be given the opportunity to show whether you want a cleaner more sanitary Wainwright, or whether you are content to carry on under conditions which I have just described.

Let us suppose that I, as a citizen, were given full authority to institute whatever measures I saw fit to make this a clean sanitary town, what would I do?

1. I would order water and sewerage systems completed as quickly as possible.

2. I would make it compulsory for all householders to burn all burnable house refuse.

3. To wrap and deposit all non-combustible house waste in fly proof containers at the back of the lot.

4. Weekly (and in hot weather semi-weekly) collection of garbage by scavenger.

5. Regular inspection by a full time sanitary inspector with authority to act in case of non compliance with regulations.

Probably you think that these are very progressive measures—they are because we, the citizens of Wainwright, are a progressive people and when we vote overwhelmingly in favor of water and sewerage on August 15th we will be just opening the campaign to make Wainwright the cleanest, most sanitary and most beautiful town in Alberta.

McCluskey-Peacock Nuptials Held Wed. Last

Pastel bouquets of summer flowers banked the altar of St. Andrew's Presbyterian church on August 7th, at 3:00 p.m. for one of the seasons prettiest weddings when Miss Doris Peacock, daughter of Mr. and Mrs. G. Peacock of Wainwright and Mr. William McCluskey, son of Mr. William McCluskey of Vancouver and the late Mrs. McCluskey, were united in marriage. The wedding music was played by Mrs. A. Ratnay while Mrs. W. Long sang "Till We Meet Again".

With Rev. Hancock officiating, the bride given in marriage by her father, was charming in a gown of white embroidered organza with full skirt, fitted bodice and sweetheart neckline. Her white net veil was floor length and fell from a feather headpiece. She wore a long white net mittens. Her bouquet was of American Beauty roses with cascades of silver streamers knotted with sweet peas. The brides only ornament was a single strand of pearls, gift of the groom.

The bride was attended by her sister, Mrs. A. J. Pierce, as matron of honor. She was daintily attired in a blue sheer gown, fashioned on long lines with a gathered peplum and gold yoke. She wore a blue chapel veil gathered in halo style to a blue feather headpiece. She carried a bouquet of pink and yellow snapdragons and sweet peas. Miss Elsie Harris, cousin, of the bride was bridesmaid and was gowned in pink dress with full skirt and small pleated bolero. She wore a pink chapel veil gathered in halo style to a pink feather headpiece. Her bouquet was of blue larkspur and sweet peas.

Master Ronald Mills, wearing a white tuxedo suit, acted as ring bearer. Mr. Cliff Reynolds acted as best man and Mr. Walter Huntingford was groomsmen. Ushering guests to seats marked with pink and white cornflowers were Mr. Jack Peacock, brother of the bride, and Mr. Herbert Sawyer.

A dinner was held at the Wainwright Hotel at which some fifty guests were present. Mrs. Peacock, mother of the bride, receiving with the bride party, wore a mauve crepe dress with black accessories and corsage of Tallman roses. Mrs. Norman Harris, sister of the groom wore a black suit, black accessories

and her corsage was of pink roses. Pink and white streamers were used in the lining room while bouquets of pastel sweet peas decorated the bride's table which was centred with a three-tiered wedding cake and tall white tapers. Rev. Hancock proposed the bridal toast to which the groom suitably responded.

Following the dinner, a reception was held at the home of Mr. and Mrs. George Reynolds, when many friends called to congratulate the happy young couple.

Later the couple left for a honeymoon to Jasper, Banff and Vancouver. For travelling the bride wore a cocoa brown dressmaker suit with white top coat and white accessories. Upon their return they will make their home in Wainwright.

Out of town guests for the wedding included Mr. and Mrs. A. J. Pierce, Fairbanks, Alaska; Mr. and Mrs. N. Harris, Mrs. H. G. Polkins and Mr. and Mrs. D. H. Folkins all of Chauvin, Alberta.

Large Attendance
At Public Meeting

The council room in the Town Hall was filled to standing room only, on Thursday night of last week when between 75 and 100 ratepayers turned out to hear various reports on the proposed water and sewer system.

With Mayor Middlemas as chairman and Don Pawsey as secretary, the meeting got off to a good start at 8:00 p.m. with the report of Councillor Cork being given. Mr. Cork outlined various phases and details of the plan and answered many questions asked. His remarks were very well received and clearly understood.

The next speaker called was the medical health officer, Dr. H. C. Wallace who spoke in the affirmative of the system. The text of Dr. Wallace's speech will be found in other columns in this week's issue.

Guest speaker of the evening was Mr. D. R. Stanley, provincial sanitary engineer, who gave a very interesting talk outlining the water and sewer schemes from the time of the Romans up to the present day. He also told of different towns in Alberta who have or are contemplating water and sewer systems along the lines proposed for Wainwright, stating many of them were not near our size.

Councillor Robinson gave a short address on some of the highlights of the financial end of the scheme. He outlined the method of financing which will be by 30 year debentures, callable at the end of 10 years.

Mr. L. W. Smith, president of the Wainwright and District Board of Trade gave some very interesting remarks showing the reason that everyone should be in favor of the plebiscite. His remarks were sometimes a personal attack on the trouble that is often incurred with private water systems. He also pointed out the difference in cost of operation of private systems and cost as laid down in the by-law. He emphatically stressed that the operation of a town system is much cheaper than we near our size.

At the finish of the speakers a general question period was held, in which many enlightenments were brought about as well as good suggestions made. The general feeling was, as soon as at all possible, Wainwright should have the water and sewer systems installed. Many persons who live on the east side of main street complained of the lack of water in the wells in that vicinity. Suggestions were made and in the near future council is going to deal with them.

The meeting ended with much feeling of an evening well spent and it is thought by the council that much good was derived from this attendance.

Local Ration Board Hours

During the absence of the secretary, Miss Doris Peacock, August 5th to 26th, the Ration Office will be open the following hours:

Monday to Saturday—1 to 5 p.m.
Wednesday only 9:30 to 12 a.m.

Mrs. D. Dundas will be in charge.

HEATH

Misses Evelyn Ford and Lucille Touchette are home this week from summer school for a holiday before their schools reopen.

Miss Edith McRoberts was in the district renewing acquaintances while on holidays from nursing duties in Edmonton.

Joyce Bartlett is away on a visit to Mr. and Mrs. Watson of Arlton, Sask.

Mr. and Mrs. Stanley Davis and family returned to Watrous on Monday after a month's holiday with the Bouck family here.

Kath Sparks was here from B.C. to visit his relatives Mr. and Mrs. Spornitz and family.

Mrs. Lloyd Davis was guest of honor at a shower at her home on Tuesday afternoon when the ladies of the community presented her with a decorated box of gifts as a token of welcome to her new home in Canada. Mrs. Davis expressed her thanks to all and a pleasant hour was spent over the tea cups.

Mr. and Mrs. Stenson and family were away during the week on a motor trip to Kitchissippi and Lloydminster.

Mrs. Leo Mosier and family of Wainwright spent a week camping at Clear Lake.

Miss Hildren Jones is away on a visit to her sisters in Edmonton and Bawhaw.

EDGERTON

The Rev. V. Cole and his wife have been visiting at the latter's home, the Mitchell.

Mrs. H. Brown left Monday by bus for a few days visit in the city.

Mr. R. J. Gee and his assistants have been busy during the week making a new assessment of the Village.

Harry Johnson is away from the Lumber Yard on holiday. R. Knoson of the bank staff also left Saturday for his vacation.

Mrs. W. Brooks and Phyllis have returned to Winnipeg after spending nearly a month here.

Mr. and Mrs. Lucy Smith from Nebraska were visiting at the home of her sister, Mrs. Ira Kimball. Faye Jackson was home for a short while.

The recent rains and Ike-Kinball with his tractor have greatly improved the street in town.

Mr. S. Greer and children of Cincinnati, Ohio are visiting with her sister, Mrs. D. Trimmer.

Mr. and Mrs. Moore of Edmonton were visitors at the Darby home. Service will be held at St. Mary's church next Sunday August 11th at 7:30 p.m.

PELICAN

(Too late for last week)

Marie and Marj Belk accompanied the Murray family to Wainwright on Monday for dental work.

During Monday night we received one of the "widely-scattered thunder showers" which was most welcome, although it dampened large quantities of hay on the ground.

Miss Belk has swathed and stacked his fine field of frozen wheat on the flat.

On Wednesday the three delegates and many visitors from Pelican A.F.U. attended the annual A.F.U. convention at Wainwright. Romeo Belanger was elected director for sub-district No. 6.

Late Thursday afternoon we had another terrific windstorm followed by a sharp shower with a scattering of fine hail which did little damage and the rain was most welcome.

Berry to report there was hail damage to the north-west.

A good crowd attended the dance at Follies school on Friday and had a very good time. It was indeed a pleasure to have Mildred, Joyce and Joan back at the old school-house.

Mr. and Mrs. Lorne Jackson are visiting at Holland's and Art Bras singstone.

Irene Aasen spent the long weekend at home and in Paradise Valley. Mrs. Roming visited Aasen's Monday afternoon, and Mildred returned with her to Paradise Valley for a visit.

Gerald Greubek and Ole Haugen (Big Ole) were visitors to Edmonton last week.

Early Monday morning Mike Belk rushed the infant son of Mr. and Mrs. Louis Trotter to the hospital in Wainwright.

For the past two weeks Misses Joyce and Jean Smale have been visiting friends in Hardisty.

Instead of their monthly meeting for August, the W.I. decided to have a get together at Clear Lake on Sunday. A large crowd turned out and the day was spent in swimming and boating. In the late afternoon a delicious supper was served by the ladies. Everybody reported a good day.

Mrs. B. Bailey has her sister-in-law, Mrs. M. Bailey, from Vancouver visiting her this week.

Mrs. B. Rayson from Vancouver is visiting in the district this week with her nieces, Mrs. C. Lowe, Mrs. V. Avison and Mrs. E. Britney.

With The Field Supervisor

by F. W. Madden

FALL RYE FOR WEED CONTROL

Fall Rye has proven itself as an excellent crop to use in controlling perennial or annual weeds.

As fall rye is a fairly good price now and there is evidence of a good price next year, I would strongly advise you to seed your weediest summerfallow this fall to fall rye.

There are a number of farmers in the M.D. of Wainwright using fall rye to kill weeds and the results are remarkable.

Fall rye should be seeded between the 1st and 15th of September at the rate of 15 to 20 lbs. per acre. The use of Ammonium Phosphate fertilizer at the rate of 15 to 20 lbs. 2-10 per acre speeds the growth in the fall and establishes a stronger plant to withstand the winter and also speeds the growth in the spring.

In normal years the rye should be cut and stock to the side by July 31st, then you immediately start cultivating to germinate any weed seeds that may be lying dormant in the soil.

If you find your field still badly infested it would be advisable to repeat the fall rye that same fall, or cultivate through to freeze up and seed an early barley the following spring. Preferably Olli Barley.

SUGGESTIONS FOR THE USE OF SODIUM CHLORATE. Sodium Chlorate can be applied either in the dry form or as a spray and is equally effective either way. It sterilizes the soil and plants are killed by being prevented from producing the necessary above-ground growth. Its use is only practical on limited areas where a high expenditure is justified to prevent the spread of a persistent perennial.

METHOD OF APPLICATION:

Spray:

Knapack or power sprayers are suitable. Mix the Sodium Chlorate at the rate of 1 lb. per gallon of water. If foliage is heavy, best results will be obtained by cutting and removing it before spraying.

Less labor is required for this method and the fire hazard is greatly reduced.

Applied with a hand duster or a tin container with holes punched in the bottom for shaking the chlorate over the weed patch is satisfactory.

Rates of application are the same as for spraying.

Rate of Application: Generally speaking 1 1/2 to 2 lbs. per 100 sq. ft. is satisfactory. However for the more persistent perennials heavier applications will probably be necessary as well as subsequent treatments to insure eradication.

Time of Treatment: Treatment is usually most effective between mid-summer and freeze up after the top growth has been removed by cutting.

NOTE:

If treatment is delayed until late summer or fall the weeds should be prevented from getting to seed by cutting during the summer.

1. Treatment should be extended at least eight feet beyond the edge of the weed patch in order to kill lateral roots which otherwise might re-infest the field.

2. Follow-up applications are often required to completely destroy all weeds.

3. Precautions must be taken when using sodium chlorate as there is a definite fire hazard.

4. Sodium chlorate is not considered poisonous but salt hungry animals will eat it on vegetation that has been sprayed, and may get enough to cause injury.

5. Alkalide, a commercial preparation containing sodium chlorate as the killing agent, greatly reduces the fire hazard. It should be applied at a slightly heavier rate than sodium chlorate.

WHO... IS CANADA'S No. 1 CITIZEN?

IT IS YOU... OR SHOULD BE.

If you are a No. 1 citizen, you will be doing your share to ward off the menace of inflation* facing Canada today.

How? ... By conservation in your personal finances ... Here are five ways you can fight inflation:

- Hold on to your Victory Bonds
- Buy only those goods which are in fair supply and save your money for the day when goods now in short supply will be readily available
- Avoid black market purchases
- Keep up your insurance
- Build up your savings account

This is conservation—the first requisite for personal security—the first attribute of good citizenship.

If we'll help in all five ways, the threat of inflation—rampant in some other countries and now menacing us—can be beaten and stamped out.

Let us all be No. 1 citizens. Remember, if you are a No. 1 citizen, you will look after No. 1 ... Save for yourself and you save for Canada.

BANK OF MONTREAL

working with Canadians in every walk of life for 128 years

* Inflation, to the citizen, means simply less and less value for his dollar ... his living costs rise as prices and careless spending drives up the price of goods still in short supply. Inflation is no respecter of persons ... like the rain, its evil falls on the just and the unjust alike. Thus, Canada's fight against the menace of inflation is your fight—the fight of each of our citizens—12,000,000 strong.

WAINWRIGHT, WEDNESDAY AUGUST 14th, 1946

VOTE FOR THE BY-LAW

Under a dictatorship the dictator decides what the people shall do or shall have. This is compulsion. In a democratic state the people decide what they should do. This is freedom.

Canada is a democracy... it is up to us, the people, to decide what we shall do.

Particularly the people of Wainwright on Thursday, August 15th, will decide whether they want comfort, health and cleanliness or whether they prefer to exist in discomfort in unhealthy and unsanitary conditions.

We will decide whether we shall have shacks or houses. Whether we shall be content with practically bare, unsightly surroundings or have trees, flowers, lawns and gardens. Whether we shall continue with make-shift outdoor toilets in varying stages of disrepair—our back alleys a breeding place for flies and typhoid germs, or whether we shall have modern, sanitary indoor conveniences.

We will decide whether we want property values to increase or decline in value. Whether towns people will leave at the first opportunity to seek modern facilities for living or whether we will influence them to stay and others to come by providing modern conveniences here. In short we will decide whether we will retard or speed up the towns progress.

These are all questions one might ask himself if there is any doubt in the mind of the necessity of a Water and Sewer system in Wainwright.

In view of these questions, Wainwright's Water and Sewer system should receive the 100% support of the ratepayers. Anyone who has the present and future welfare of the town at heart and who is interested in the health, happiness and contentment of the men, women and children will do all he or she can to promote the water and sewer plebiscite.

The next step along the way to achieving this goal is up to the ratepayers. The town council has worked hard up to this point but they can go no farther. They need the assurance of the people that what is about to come is really wanted. Other towns much smaller than ours, and hardly any of them with the possibilities of future development that Wainwright faces, have voted 100% in favor of the installation of water and sewer.

From the standpoint of convenience, health, cleanliness to individual and town, there is no argument. From the viewpoint of taxes the installation of water and sewer is the only possible avenue of Wainwright lowering its tax rates.

Shopping facilities, business services, churches, fine schools and natural gas we already have, the only thing lacking is the water and sewer system. Once a system of this nature is installed the town will grow and continue to grow. Increased building means increased assessment, this in turn means that the burden of taxation is spread over a greater number and results in lower taxes to the individual.

Make Wainwright a good place to live by providing modern conveniences and people will want to stay after retirement and many more will come into the town from the surrounding districts. The town of Hannah, Alberta, installed water and sewer in 1938 and today that town's population has increased 30% greater than at that time. Town officials attribute that growth to the attraction of modern conveniences to people seeking a good place to live.

There you have it folks. It is just pure and simple arithmetic. Wainwright has got to install the water and sewer if the town is to be progressive. Put it down as a must for Thursday, VOTE YES and give our town water and sewer.

Hints for the Household

A LONG COLD DRINK

Everybody feels the need for long cold drinks during the summer. The longer and the colder they are, the better. Someone once remarked that she felt dehydrated by the heat, which is exactly what happens and the only way to feel rehydrated is by drinking lots of water or other cold beverage.

A good hint to take in summer which will prove to be a great time and sugar saver, is to have a jar of ready made syrup in the icebox for use at a moment's notice. It saves time and what is more important these days, sugar, since quite often when sugar is added to a cold drink, a good portion of it does not dissolve and is lost. The syrup is made in the proportion of 1 cup of water to 1 cup of sugar, brought to the boiling point, skimmed and stored in a covered glass jar in the icebox. Any syrup or fruit juice left over after canning may also be used.

Simple cold drinks like lemonade or orangeade are very much improved by the addition of a few fresh berries or berry juice. The juice of seasonal berries may be used to make cold, appealing summer drinks. Cold drinks that are also nourishing may be prepared with milk and children who do not like milk alone may like it if it is disguised with another flavour.

The home economists of the Consumer Section of the Dominion Department of Agriculture suggest a few recipes for long cold drinks.

Blueberry Quench
1 cup blueberries
1 cup boiling water
1/2 cup sugar
Few grains salt
1 orange juice and grated rind
1 lemon juice and grated rind
3 cups cold water.
Pour boiling water over blueberries. Add grated orange and lemon rind and simmer slowly for 5 minutes. Strain through a sieve. Add sugar and salt and stir well. Add orange and lemon juice. Cool. Before serving add 3 cups of cold water. Six servings.

BANANA SHAKE
2 large ripe bananas
(1 cup mashed)
1 to 2 teaspoons honey or sugar
3 cups milk
1/4 teaspoon vanilla
1/4 teaspoon salt
Mash bananas with a fork until smooth. Add to the milk and mix thoroughly with rotary beater until well blended. Add honey or sugar, salt and vanilla and shake well before serving.

Raspberry Egg-Nog
2 eggs
1 cup raspberry juice
1 cup milk
2 tablespoons honey or sugar
1/4 teaspoon salt
1/4 teaspoon nutmeg
Crush 2 cups of raspberries with 1/4 cup of water, bring to the boil and for 2 to 3 minutes. Drain through a moist jelly bag, add water to make a cup of juice. Beat eggs with salt, milk, raspberry juice and nutmeg, and beat well with rotary beater. Chill well before serving.

Serves 3 to 4.
NOTE: Other unsweetened fruit juices may be used instead of raspberry juice. If sweet fruit juice is used, reduce honey or sugar.

BISCUITS "ON THE SQUARE"

Have you any flour on hand that should be called into action now to meet the problem of current shortages of baker's bread? Well, then, make up a welcome batch of biscuits.

And here's a further suggestion why be stubbornly old-fashioned about serving round biscuits when it is so much easier to roll the dough into rectangular shape and have biscuits that are "on the square".

Not only is this idea a prime time-saver, but it has its points when the new flour is used; because—with less handling of the dough—lighter, more tender biscuits are made. Here's how it's done, whichever flour you use:

Baking Powder Biscuits
2 cups sifted flour; 2 1/4 teaspoons double-acting baking powder; 1/2 teaspoon salt; 3 tablespoons shortening; 1/2 cup milk (about).

Sift flour once, measure, add baking powder and salt, and stir again. Cut in shortening. Add milk and stir until soft dough is formed. Turn out on lightly floured board and knead 30 seconds. Roll 1/4-inch thick, into rectangular shape. Cut with floured, sharp knife into 2-inch squares, approximately. Bake on ungreased baking sheet in hot oven (450° F.) 12 to 15 minutes. For baking, biscuits can either be separated or placed close together.

MAKING EVERY SLICE COUNT
And here is a recipe for Chocolate Custard Bread Pudding that will enable you to make every slice count—bread, 1 mean. This pudding provides an excellent opportunity to use up those slices that have gone stale but should not be wasted—during these times when bread conservation is the order of the day. So ladies, why not combine your left-over bread with chocolate and a few other ingredients, and turn them into a delicious and nutritious dessert? Here's the recipe. The rest is up to you.

Chocolate Custard Bread Pudding
1 1/2 squares unsweetened chocolate; 2 1/2 cups milk; 2 eggs; 1/2 cup sugar; 1/2 teaspoon salt; 1 teaspoon vanilla; 2 cups cubed stale bread.

Add chocolate to milk and heat in double boiler. When chocolate is melted, stir until blended. Beat eggs until foamy; add sugar and salt. Add chocolate mixture and stir vigorously. Add vanilla. Place bread in greased baking dish; pour mixture over it and let stand 10 minutes. Mix well before baking. Place dish in pan of hot water and bake in moderate oven (350° F.) 45 minutes, or until pudding is firm. Serve hot with a hard sauce or cold with cream. Makes 6 servings.

WAR ECHO

Not the least of the virtues of the Salvation Army is its ubiquity. The blue and red of the Army's adherents are accorded a never-failing respect wherever they may be.

The other Saturday a Salvationist lassie was making her way through the men's beverage room of a large Toronto hotel, selling copies of the War Cry. In deference to the lady the sound of revelry decreased by several decibels. A young veteran of World War II handed the young lady a 50-cent piece and shrugged the magazine aside. "But your change, sir?" she asked. Pointing at his honorable discharge button the young man said quickly, "I've had my change from the Salvation Army."

World Of Wheat

THE WHEAT AGREEMENT

The Government of Canada has signed an Agreement with Great Britain by which Canada will supply Britain with slightly less than half of Canada's export wheat at \$1.55 per bushel, \$1.25 for the third year and \$1.00 for the fourth year.

This is almost a private agreement between our Cabinet and Britain, because neither Parliament nor our wheat growers were consulted. \$1.55 at the moment is from 50 to 60 cents less than the world price, which Britain is now paying for American wheat. Some people think that because Canada has just loaned Britain a billion and a quarter dollars on very cheap terms, that our debt to Britain is balanced, and that there was therefore no need to give Britain a further subsidy amounting to about 80 million dollars a year for cheap wheat. Be that as it may, however, for my own part, I certainly feel that if the Canadian Government is possessed of a desire to subsidize Britain with such cheap wheat that at least the additional subsidy should be paid by all the people of Canada, and not paid alone by our wheat growers.

This, it seems to me, is all most unfair to our wheat growers, and so is a matter which should receive the immediate attention of our Provincial Premiers.

ITEMS OF INTEREST IN

THE WORLD OF FOODSTUFFS
U.S.A. stocks of old wheat at the end of the Crop year, July 1st, 1946, totalled about 10 1/2 million bushels, which includes about 4 1/2 million bushels on farms—Storages in the United Kingdom have caused crop damage estimated at 50 percent in some districts—Frost damage was reported at a number of points last week in Northern Alberta and Saskatchewan.

Soil conditions in the Argentine are reported to be excellent for the seeding of grain—Some European countries are reported to be expecting an increase in their bread-grain production sufficient to make them more nearly self-sustaining.

We "muddled through" the war of arms, but if we muddle in the war of ideas, we're through.

FARMING NOTES

By Prov. Dept. of Agriculture

HOME CANNING PAYS

This year it is more important than ever to preserve as much of our winter food supply as possible. Don't let the price of fruit and the sugar ration lessen your efforts in home canning, suggests Mrs. V. Macdonald, Supervisor of the Home Economics Division. It still pays to do your own canning. On canning a crate of blueberries this year we worked out the complete cost and found that we saved ten cents on each can.

And here's another important point—if you do your own canning you will have more fruit for the winter than if you save your canning—sugar coupons to buy canned fruit. Using a thin syrup of 1 cup of sugar to 3 cups of water (and this is quite suitable for sweet fruits such as pears and blueberries) your 10 lbs. of sugar will preserve 40 quarts of large fruit or 65 quarts of small fruit. Using a syrup of 1 cup of sugar to 2 cups water for peaches and plums 10 lbs. of sugar will can 30 quarts of large fruit or 45 quarts of small fruit. However, the coupons for this 10 lbs. of sugar would buy only 20 cans of fruit.

Honey can substitute for half or all the sugar in canning although not everyone likes the flavor of fruit canned with honey alone. Honey may also be used successfully in jams, jellies and sweet pickles. If you must buy the honey it will be more expensive than using sugar, but remember 1 "9" coupon will buy 4 lbs. of honey and only 1 lb. of sugar.

Here is an excellent sugar-saving method for canning juicy fruits such as berries, rhubarb and plums: Crush part of the fruit in the bottom of a kettle. Add the remaining fruit and heat until the juice starts to flow. If necessary add a little water to prevent scorching. Pack solidly in sealers, crushing fruit down slightly so that it is covered with juice. Process according to time table. No sugar is needed—although many prefer this method even when using sugar. The flavor is better than if a very thin syrup is used to can the fruit. If canned without sugar this method gives excellent fruit for pies and winter desserts.

LIVE STOCK POISONING

Dr. P. R. Talbot Provincial Veterinarian for the Alberta Department of Agriculture, advises special care at this time of year to prevent live stock losses from botulism or forage poisoning. These terms are applied to a group of diseases caused usually by some harmful germ or mould in the feed or water. Whenever animals become ill following a change in the character of the feed or after drinking water that has become stagnant as a result of dry weather, poisoning should be looked for and guarded against.

In almost all forms of this group of diseases, nervous symptoms, staggering gait, sleepiness and giddiness are evident. Not infrequently paralysis of the throat with inability to swallow is present.

The best assurance against this group of diseases is the provision of wholesome feeds and a plentiful supply of pure water. Horses suffer more frequently from botulism than do cattle. Medical treatment varies because of the great variation in the forms of disease in this group, so if

the disease appears, a veterinarian should be called at once.

BOYS' AND GIRLS' CLUB EXHIBITS

Junior Grain Club Members, as well as seed growers throughout Alberta, will be delighted to hear that the Royal Winter Fair at Toronto and the International Grain Show at Chicago are both re-opening this fall. Both of these fairs were discontinued during the war, and their return will be welcomed by all interested in agriculture.

Grain Club members of Alberta will again be able to compete with club members from other provinces, and it is hoped they will continue their high record of winnings in wheat, oats and barley. Alberta Club members in past years were not content with winning at Toronto, but have also had their share of success in the open classes at the International. It is no mean feat for a junior club member to compete and succeed over exhibitors from all over Canada and the United States.

Although exact dates have not yet been announced, these fairs will be held in late November and early December. For the present, club members are advised to start planning now, since entries must be in early in October, and samples in Toronto early in November. One change is noted with reference to club exhibits—an entry will consist of 18 lbs. of grain, and not one peck as formerly. Other regulations worth remembering are that each club is allowed not more than three exhibits and each exhibit must be taken from the crop of the current year.

NOTIONS ABOUT HEART DISEASE FALSE

The feeling of the general public that heart disease means total incapacity, a short life and a sudden and terrible death is far from the truth, according to Dr. Walter Modell, instructor in the department of pharmacology at Cornell Medical College.

In an article in Hygeia magazine some months ago, Dr. Modell wrote: "We know a great deal about (heart disease)—how to treat it and how to control it, what is required in the way of rest, diet habits, play and work. We can treat it rationally. We must not bury it under an avalanche of superstition and ignorance. The majority of patients live a long and often a useful life. What is not generally recognized is that some forms of heart disease need not interfere at all with a normal existence. Whether any or many restrictions need be placed on the patient depends on an evaluation of the true nature of the condition. This is a matter for the careful consideration of the physician only."

"In the case of heart disease virtually all popular notions of its cause are false. In the vast majority of cases the cause is still a mystery."

In recent years heart disease and become the most important of all diseases, causing more deaths than any other disease, and thus making people more conscious of it and concerned about its increasing prevalence. Many people were asking why they heard so much about heart attacks and wanted to know if something was happening to their hearts.

"The answer is simple but paradoxical," wrote Dr. Modell, "It is because people are healthier than there is more heart disease today. It is because people are living longer and because there are many more people alive today who are over 40."

"Our hearts are as good as ever. Nevertheless heart disease is a problem of mounting importance."

ABOUT LAUGHTER

Never laugh at your children, but be sure to laugh with them, advises Barbara Leonard Reynolds in a recent issue of Parent Magazine. Enjoyment of a good joke can be a delicious meeting ground between parent and child, the writer says, but she advises that it is up to the parent to climb down to the child's own level in the matter of humor.

In this connection, Professor Cyril Burt, President of the British Psychological Society, comments in the Health Education Journal that there is value in laughter in education and discipline. He says it is much easier and surer to correct children's faults by good-humored means instead of stern repression. He also comments that a hearty laugh, by whipping up the blood and expanding the lungs, heightens the laughter's general sense of well-being.

Suggestion is offered by the Department of National Health and Welfare to all home-makers to go in for canning of fruits and vegetables this year. Not only does this provide a handy stock of healthful food, but the nutrition experts of the department point out, it will make food available for shipment to more needy peoples.

PRIVATELY EDUCATED

In one respect, at least, modern educational authorities have promoted private enterprise. The state schools are so busy teaching the important things that they have no time for spelling and grammar. The consequence is that boys and girls entering the business world must attend business schools (most of them privately owned), to learn how to write a simple sentence without mis-spelling most words and without avoiding punctuation.

NEWS & VIEWS OF TOWN AND DISTRICT

This week as most other weeks we are again short of "locals". It is rather a difficult job collecting odd scraps of news of visitors and other guests that might be at your home. If you have news like this or are leaving town for a few days phone it to us. A ring to the same old number 45, will help us produce a better paper and have a better local column. Don't be bashful or modest we want to know what is happening and by your co-operation is the only way that this can be done.

Vote YES on Thursday

BORN—To Mr. and Mrs. E. Sharkey of Irma at the Wainwright municipal hospital on August 10th, a boy.

BORN—To Mr. and Mrs. C. Savard of Irma at the Wainwright municipal hospital on August 11th, a boy.

BORN—To Mr. and Mrs. E. Plaxton of Wainwright at the Wainwright municipal hospital on August 12th, a girl.

We are sorry to hear that Mr. Tom McDougall of Greenshield suffered a fire loss at his home last week. It seems that a storage building located about four feet from the house caught fire on Wednesday morning about 3:00 a.m. and when Tom looked out the window, there was nothing but a sheer wall of flames. Different neighbors were contacted by phone, but only neighbors living close could come to offer aid. Roads were very muddy at that time and help could only come by foot.

Vote YES on Thursday

Mr. and Mrs. M. D. Meade were in town for a few days last week visiting friends and relatives. Mickey has been busy all summer at the university marking examination papers.

Miss Margurite Brunner arrived Saturday night to visit friends and relatives returning on the Sunday morning train. She was accompanied by Mr. Eldon Bonter of Marmora, Ontario.

Mr. and Mrs. J. Alderman are away to the city this week. It being Jack's annual rest from the daily toil he puts in at the C.N.R.

Vote YES on Thursday

Mrs. Dave Walker, a former resident of Wainwright, stopped off here to pay a visit with her son and daughter-in-law, Mr. and Mrs. Eddie Walker. Mrs. Walker has been visiting friends and relatives at Regina for the past few weeks.

We notice that Mrs. J. Donaldson and daughter, Betty have arrived back from the East. Mrs. Donaldson has been visiting her sister Margaret (Mrs. Bruce French) at Timbilton, Ontario.

On being at the arrival of Saturday night's train we saw Miss Joyce Renville step off. Joyce is visiting her parents in town while enjoying holidays from her employment in Edmonton.

Vote YES on Thursday

Mr. and Mrs. J. Taylor have as their guest Mrs. Harrington who is visiting them from her home in Vermilion.

Miss B. Carrell of the local Alberta Government Telephone staff is away enjoying her annual vacation, visiting friends at Davidson, Sask.

Miss Kathleen Riddle is back at the switchboard of the telephone office after enjoying her holidays at Calgary, Banff and other southern Alberta points.

Miss Elvina Harley of Edmonton is spending her holidays in town visiting her parents, Mr. and Mrs. W. Harley.

Vote YES on Thursday

Rev. Hancock and son Allan enjoyed a quick trip to Edmonton last week and have now moved to Clear Lake to spend the remainder of Aubrey's annual holidays.

Mr. and Mrs. C. Riddle have returned from their holidays which they have been enjoying at the coast, Calgary, Banff and other southern points.

Mr. and Mrs. Alex Plater of Greenshield returned last week from a visit to Mrs. Plater's father at Chilliwack, B.C. When Mr. and Mrs. Plater left Mrs. Plater's father was improving in health but since returning we learn that he has died. Further details will be found on other columns in this week's issue.

Vote YES on Thursday

Mrs. S. Welch is planning on taking a trip to southern points to visit her daughters who live in High River and Macleod. We are glad to hear that she has sufficiently recovered from her recent sickness to enable her to make the trip.

Mr. and Mrs. W. McCluskey left last Thursday after their recent marriage to honeymoon at Jasper, Banff and over the big bend highway to Vancouver where they will visit Greg's Dad who resides in that city.

This week sees Mr. and Mrs. Stan Ryan and son Bruce away from the daily grind by taking a motor trip to Jasper and Banff. They expect to be gone two weeks.

Vote YES on Thursday

Mr. Dixon Montjoy has returned from a hurried trip to Vancouver and other points. Dixon drove Mr. and Mrs. McCas of Arltland to their destination where they intend to reside in the future.

As we write this it is once more raining outside. The rains of the past week have been very welcome but according to many farmers it did not arrive in time. It will however help the late crops along and do wonders to make a good supply of green feed for the coming winter.

Dr. Doug. Wallace was a week-end visitor in town last week and returned to the city accompanied by his wife.

Vote YES on Thursday

Former Resident

Dies In B.C.

A former resident of the Wainwright district that will be remembered by many old timers in the name of Mr. Sam T. Gregory died in Chilliwack, B.C. last week.

Mr. Gregory came to the Wainwright district in the year 1905 and farmed in this territory until moving away in 1922. He was 74 years old on July 23rd last and had resided in Chilliwack until the time of his death.

The funeral took place Tuesday of this week with interment taking place in the Little Mountain cemetery at Chilliwack.

Left to mourn are his wife, three daughters, Mrs. A. Plater, Greenshield, Mrs. E. Foster, Longview, Washington, and Mrs. Paul Bretton, Edmonton. Also one sister, Mrs. Johnson, Washington, U.S.A., seven grandchildren and nine great grandchildren.

W.I. Hear Conference Report

The Wainwright W.I. held their monthly meeting on Thursday, August 8th at the home of Mrs. C. Wilbraham. Mrs. Spence, president, was in the chair. There were 12 members and one visitor present.

Mrs. Chynoweth gave a very fine report of the District Conference held at Kinsella on Friday, June 14. The members decided to have a collection of canned foods, meat or fruit, these to be brought to the next meeting for a food parcel to be sent overseas.

Raffle gift donated by Mrs. R. Geor was won by Mrs. Kowalchuk. The next meeting is to be held at the home of Mrs. Nordstrom on Thursday, September 12th. Raffle will be answered by "Pick Your Pickles." An invitation is to be extended to our District Director, Mrs. J. C. McLean of Irma to visit us at this meeting. Hostesses Mrs. Nordstrom and Mrs. McDonald. —Con.

Notes By The D.A.

by J. S. Robbette

Extra harvest labor is again being
brought into Alberta from Ontario
by the Dominion Provincial Farm
Labor Service. All farmers in the
Wainwright, Falgout and Green-
shields districts are requested to list
their needs for labor with the Dis-
trict Agriculturalist at Wainwright.
In this way the men from Ontario
can be handled most efficiently and
with least loss of time getting them
out to the fields. If you need extra
help ask for it early.

After a frost like we have had this
last month, the question always com-
es up, will this grain be good for
seed next spring? This is something
that cannot be determined by the
appearance of the grain, but must
be found out by experiment. It would
be advisable for all farmers to cut
out what they think is the best part
of their fields and harvest them
separately for seed. This winter the
seed should be tested either in a box
at home or send it to—Plant Pro-
tection Division, Immigration Build-
ing, Calgary for a germination test.
Any grain that tests less than 75%
should not be used for seed, if it is
possible to get good seed elsewhere.

**Alberta Ration Boards
Arranging Dates For
Issuing of Book No. 6**

Local ration boards in Alberta are
now arranging the exact dates dur-
ing the week of September 9 to
September 16 on which distribution
of Ration Book No. 6 will take place
within their respective territories.
Warime Prices and Trade Board
officials said.

Alberta local ration boards are at:
Medicine Hat, Taber, Lethbridge,
Cardston, Macleod, High River, Yul-
can, Brooks, Oyen, Hanna, Drum-
heller, Strathmore, Calgary, Olds,
Coronation, Stettler, Red Deer, Har-
dyst, Camrose, Wetaskiwin, Wain-
wright, Vermilion, Vegreville, Leduc,
St. Paul, Willingdon, Smoky Lake,
Wetaskiwin, Edson, Lac La Poudre,
Athabasca, Peace River, Grande
Prairie, Dawson Creek, Blairmore,
Kimberly, Golden, Banff, Creston,
Foremost, Three Hills, Rocky Mt.
House, Lacombe, Ponoka, Holden,
Jasper, Vancouver, Bonnyville,
McLennan and Barrhead.

Each ration board will select
specified dates on which to distri-
bute Ration Book No. 6 to suit local
conditions. All boards have been ad-
vised that distribution of the new
book is to be completed by Septem-
ber 16. "All ration book holders
should arrange to call for their new
books on the days arranged by their
local ration boards as no further
distribution will take place till Sep-
tember 30", a Prices Board official
warned. "They will otherwise be de-
prived of the use of any ration com-
ponents in the meantime", he pointed
out.

The new ration book No. 6 is
neatly printed and bound in an
orange yellow cover and contains
fifty coupons for butter, fifty for
sugar and fifty for meat. Seventy-
five "X" and "Y" coupons are also
inserted in the new book should the
need for their use arise in the future.

**MAPLE LEAF PRODUCTS
ARE BEST**

With the harvest season
near at hand order your fuel
and oil requirements early.
Complete stock of greases,
transmission and motor oils,
distillates, diesels and gaso-
lines.

REMEMBER! Order your
requirements NOW! See the
new underpumps, orange
tanks, they'll save you mon-
ey.

**Game Assoc. Stocks
District with Pheasants**

Over 180 Ring Necked Pheasants

have been turned loose in this dis-
trict, said Mr. H. E. (Barney)
Stocks, an officer of the Wainwright
Fish and Game Association in an
interview last week. The fish and
game association have been quite
concerned with the depleted pheasant
population in this district and
steps have been taken to protect
these birds.

As everyone knows there is nothing
quite as tasty as a pheasant when
the hunting season starts. In a
matter of a few years from now they
will be more plentiful than they
have been in the past.

The pheasants have been turned
loose in a secluded spot just as a
precaution of being killed this year,
but Mr. Stocks stated that if there
are any nimrods that do happen to
come across these creatures this
season we hope that they will turn
their head and look the other way.
Only in this way, he said, will the
birds ever propagate and become
plentiful again, affording equal
chance to all hunters to acquire
there full share.

It will be a matter of two or three
seasons before the population is
sufficiently large enough to declare
a hunting season of them.

Remember, if you are hunting and
see any pheasants, please look the
other way.

**New Orphanage Opens
in Edmonton**

The opening of the new Hon.
Frank Oliver Home for orphaned
children of ex-servicemen, perpetuat-
ing the name of one of Alberta's
most distinguished persons and an
ex Minister of the Interior, is ex-
pected to take place in the early fall.

Under the auspices of the Hon.
Frank Oliver chapter, I.O.O.F., which
is organizing and will administer and
maintain it, the Home will house and
care for fifty children. The members
of the chapter, raised the money
\$35,000 to buy the property for the
new institution, the J. A. McDougall
residence on 103rd Street, Edmonton
opposite the former home of the
Hon. Mr. Oliver. Containing four lots
the well-shaded grounds will make
ideal playgrounds, and the house is
admirably adapted to its new use.
Although it will cost at least \$15,000
to make the necessary renovations,
restoration, re-decoration, etc., and
to install a modern "foolproof" fire
escape of the newest centrifugal
type, (enclosed circular stairway).

Other installations such as a modern
electric laundry, a new stove,
bathrooms, etc., will be required, but
the purchase of the fifty beds, com-
plete with mattresses, pillows, blan-
kets, etc., will be about the largest
single item. Several organizations
have asked to be allowed to name,
equip and maintain a bed, which will
be a great help and the chapter
hopes that other societies may fol-
low their example.

While the administration, furnish-
ing and maintenance costs will be
borne by the chapter, the upkeep of
the children will be paid for by par-
ents, guardians or the government.
The first floor of the building will
be used for office, dining hall, kit-
chen, clubroom, etc. The second floor
will contain the sleeping quarters for
the girls, and the top floor the boys
dormitories.

The members of the chapter, under
their regent, Mrs. J. E. Peterson,
now are busily engaged working to
secure the money needed to finance
the Home.

G. men in the U.S. picked a good
time to investigate the Ku Klux
Klan. All they need to do is to watch
for suspicious characters at the
August white goods sales.

Vote YES on Thursday

NOTICE OF POLL

THE TOWN OF WAINWRIGHT

BY-LAW Nos. 470 AND 471

By-Laws to authorize the Municipal

Council of the Town of Wainwright

to incur indebtedness on behalf of

the said Town for the purpose of

THE TOWN HALL.

In the Town of Wainwright and that

I will at the Town Hall on Thursday

the 15th day of August, 1946 at

seven o'clock in the afternoon, sum-

up the votes and declare the result

of the Poll.

Given under my hand this 27th day

of July, 1946.

DONALD PAWSEY,

Returning Officer

The Ottawa Mind

Mr. Hiley's latest budget doesn't

seem to have pleased anybody, ex-
cepting probably his chief author,
Dr. W. Clifford Clark, who was ap-
pointed deputy minister of finance
by R. B. Bennett.

In the latest document, the Gov-
ernment is committed to at least two
theories. One is that governments
can budget in cycles rather than an-
nually, that they may deliberately
budget for a deficit when times are
tough and tax more than is necessary
when times are good. It's a beautiful
theory. It doesn't start well, however,
because the people continue to be
overtaxed, and despite overtaxing,
Mr. Hiley is budgeting for a deficit.
Where the theory actually would
fall would be overtaxation in order
to build up surpluses to help provide
a cushion for depressions. No govern-
ment will ever do that. But it may
be, in Canada, that no one now living
will see a year when the government
could have an easy surplus.

The other theory which Dr. Clark
has gone some distance in establish-
ing as a governmental principle is
that a man's income belongs to the
state, and that the state graciously
hands some of his earnings back to
enable the man to keep himself and
help support his children. That this
belief exists in the Ottawa mind is
shown by the decision, so blandly an-
nounced by Mr. Hiley, that hence-
forth all parents of children under 16
must accept the diaper code. The al-
ternative is to deprive themselves of
the tax exemption heretofore allow-
ed to all who prefer to support their
own children rather than have the
state assume responsibility and the
right of inspection of homes by the
state's designated social workers.

Vote YES on Thursday

That new "foolproof" voting mach-
ine just brought out in the States is
probably unconstitutional. After all,
it gives a right to vote as well as
anyone else.

NOTICE

Positively no more gravel is to
be hauled from the site situated
